Tool Management Software GTMS

- Simple and intuitive user interface and menu navigation
- Personal dashboard
- Creation of various tool lists
- Direct call-up of CAD systems and graphics programs for processing and presenting tool drawings
- Comprehensive storage management functions which also control Guhring’s TM Vending machines
- Depiction of customer organization for clear cost allocation of tool withdrawals

- Consumption analysis to various criteria, i.e. tool consumption per component, machine or manufacturing area
- Individual solutions can be programmed according to customer requirements
- Connection to current ERP/PPS systems, tool management and paternoster systems through programming of corresponding interfaces
- Multi-lingual software
- Production of individual customer forms

NOW WITH NEW AND OPTIMIZED USER INTERFACE
Guhring tool dispensing system TM 326 is an electronically controlled, modular, expandable system with all the functionality of Guhring Tool Management Software GTMS. Electronically locked drawers allow controlled tool removal. The drawers can be adjusted in height and styles to individual customer requirements.

**GUHRING TM TOOL DISPENSING SYSTEMS**

**TM 326 MANY POSSIBILITIES**

Guhring vending units freely combine with extension storage systems, providing suitable space for tools and other consumables.

**TM 526 100% DISPENSING CONTROL**

With Guhring tool dispensing system TM 526 you have full control of product withdrawal. The drawers of the TM 526 open only to the extent of the selected item quantity of the tools requested.

**FEATURES:**
